About us

Gauri is a UK based consultancy specialising in implementing and supporting world-class CRM and Data solutions. We firmly believe that a data-driven solution on a strong digital foundation will be key to the success of all future businesses. We provide our customers with powerful end-to-end CRM solutions enabling them to better compete and grow by maximising sales, customer satisfaction & retention. Gauri offers an enviable career complete with diverse experience, challenges, opportunities, and growth. We take great pride in our core values of being honest, equitable and fair.

About the Role

We are looking for an **SAP ERP Logistics consultant** who can lead and deliver complex solutions in SAP SD, MM with the best quality against challenging timelines. We will provide opportunities to cross train into next generation solutions like S/4 HANA, EWM, cloud-based solutions including SAP Sales & Service, Salesforce, and an opportunity to get on board with Machine Learning and AI.

Key accountabilities	Skills & qualities we expect from you
<ul style="list-style-type: none"> ○ Facilitate the implementation and support of SAP SD, MM end to end process. (WM PP skills would be an added advantage) ○ Perform detailed analysis of complex business process requirements and provide appropriate system solutions; identify, interpret, validate and document customer requirements assessment and risks identification. ○ Facilitate discussions with onshore team and remote calls with customer to understand business requirements ○ Map client business requirements, processes and objectives; develops necessary product modifications to satisfy clients' needs. ○ Design, customize, configure and testing of SD and MM processes ○ Identify gaps, issues and work around solutions. ○ Act as liaison with client for troubleshooting: investigate, analyse, and solve software problems. ○ Handle changes or emergency transports as needed for high priority issues. ○ Document functional designs, test cases and results. ○ Proactively identify and propose business process and/or system enhancements ○ Provide consulting services on both new implementations and existing support projects ○ Act as a liaison between the business functions and the technical team. ○ Provide ad-hoc training and user support as required. ○ Work self-directed and independently; may act as subject matter mentor to more junior members. 	<ul style="list-style-type: none"> ○ Minimum of 5 years of experience in a full cycle implementation as well as in support projects. ○ Minimum of 5 years designing and configuring SD / MM modules knowledge of the key integration points between the other SAP modules ○ Ability to multitask and manage multiple deliverables and projects at the same time ○ Experience in a Professional Services or Distribution company is an asset ○ Understanding of accounting business processes ○ Ability to understand business processes from a customer perspective ○ Ability to work in a team environment, effectively interacting with others ○ Must be results oriented, and demonstrate a “can-do” attitude – adaptability, flexibility and resourcefulness
